Starts his email with "GM losers ☕"

End it with "Sh*t happens. Peace!"

I tell you what, personality goes a long way when it comes to emails. 🤪

Look no further, our sponsor this week is [RhinoRank.io](https://rhinorank.io), fun fact: I used to resell their services. We don't anymore, but that's a story for another time.

They were kind enough to give our readers 10% off with the coupon code **INDEXSY10OFF**. They do niche edits AND guest posts, with a huge team fully based in the UK. Great service, I used to Karen them all the time...
